ORDERING PROCEDURES

Fax quotes to 478-275-4269 or email to angie.lifetime@gmail.com. Lifetime product nomenclatures must be used when ordering to prevent entry errors. Competitors’ codes must be converted.

Once the orders are received, they will be entered into our computer system. They will then be faxed back to you for proofing and confirmation. Please allow 24-48 hours for this process. Please call if we do not fax to you within 48 hours. We require all customers to have a dedicated fax or email to prevent delays in the confirmation process.

Cutoff is by Wednesday by 5:00 p.m. We will put your confirmed job into production Thursday afternoon.

Lead times are noted at the top of every quote we send to you. Please look for "SHIP INFO "week of" delivery. These dates depend on capacity and are subject to change for plant efficiency. Carefully confirm that the items we have entered are the items you need to complete your project by signing the coversheet provided and returning by the cutoff date to Lifetime via fax or email. Quotes not signed and returned to us remain quotes and are not manufactured. Changes should be marked and sent to us on the quote only. Please do not sign until the quote is correct with no further changes.

Signature indicates that the items and pricing shown on your order are correct and valid. Products entered incorrectly and confirmed incorrectly will not be credited.

Changes are allowed up to 48 business hours after confirmation due to volume of orders received. Additions required after this deadline will be put on a separate order. Cancellations will be subject to a restocking fee.

Please check your confirmation for deposit requirements. Deposits not received will incur an additional week to deliver.

Thank you for your cooperation in this process and for choosing Lifetime Cabinets, Inc. Please let us or your rep know if you have questions.

GENERAL POLICY STATEMENT

Lifetime Cabinets conducts business in a fair and equitable manner toward maintaining customer satisfaction. Our policies relating to damage, defective, shortage, and backorders are aligned with this principle.

ACCOUNTING

A complete New Account Application must be received and approved to establish an account with Lifetime. All credit references are checked and a credit bureau investigation is completed to determine the account worthiness of the company and/or principals. This procedure is also mandatory for COD preference. Lifetime bases account worthiness partially on how well a company and/or principals are interacting with their current vendors. Billing terms will be determined by the application results. Violation of these terms may result in a change to the initial terms or a credit hold on order placement or shipment.

Orders submitted to Lifetime are subject to review by the credit manager. Lifetime will delay shipment or production of orders from customers with insufficient funds, past due accounts or balances in excess of established credit limits at our discretion. The credit limit includes all orders shipped, current, and received. Faxed orders, including quotes are considered since we return those to you in anticipation of confirmation. In extreme circumstances terms may be set at Prepay or Certified Check only. The credit manager will release orders when account payment issues are resolved. Shipment will be based on order release, not order placement. Other customer orders will not be disrupted to get past due account orders produced.

Lifetime would like to advise dealers to be certain to obtain deposits from their builders and consumers. This is a primary way of protecting your business and we want to see you grow and prosper in spite of the market trends.

We require that our customers refrain from making payment deductions from invoices for damaged, defective or shorted items. Reconciliation of your account may result in your account being placed on credit hold if you make deductions. Discuss any adjustments to your account with our credit manager.

POLICIES & PROCEDURES

All Prestige orders require a 50% deposit for all accounts before orders are placed with our vendors. Deposit due by Thursday 5pm eastern. We accept most credit cards or wire transfer if deposit cannot be mailed in time. We allow until Tuesday (3days) for snail mail. Ship week will be changed to the next available date for deposits received past the cut-off.

CUSTOMER SERVICE/ORDER ENTRY

Each Wednesday at 5:00pm Eastern is the cutoff for receipt of orders not already entered for the next available production schedule. Signed confirmations are due by Thursday at 5pm eastern. (These dates are subject to change depending upon capacity). Orders can be submitted 24 hours a day by fax or email preferably on the Lifetime order form or computer design program form. (Customer Service Fax: 478-275-4269) Telephone orders are not accepted as they often result in errors. Lifetime Cabinets nomenclature (product code) must be used to avoid delays in processing. Incoming orders are entered for production on a first confirmed/first scheduled basis. (For current accounts only). Orders exceeding our weekly capacity will be entered to produce on the next production schedule. Some outsourced door styles require an additional week lead-time.

An entered order is faxed within 24-48 hours (unless account is in arrears) to inform you Lifetime has received your purchase order and to allow you to review and proof our entry. It is your responsibility to check the itemized order confirmation for accuracy and to notify customer service immediately if a correction is necessary. Customers should check Color, Door Style, Wood Specie, Box Style, Shipping Address, Product Codes, Modifications, Pricing and Quantities.

Orders are held until a signed confirmation is received which confirms that the customer accepts the order as it is entered. Items entered in error and signed as correct on the confirmation will not be credited and those replacements will be charged. Corrections should be marked prominently on the Order Quote and faxed to customer service. Orders will be faxed to you until we receive a signed confirmation with no changes returned to Lifetime.
**POLICIES & PROCEDURES**

**FREIGHT/DELIVERIES/CPU**

Your Sales Rep will provide you the rate for your area unless LTL shipments are necessary. Miscellaneous only incurs a 10% freight fee if shipped with other items on a trailer. Miscellaneous shipped without cabinets will incur an additional 75.00 drop fee. Typically all orders ship on a Lifetime truck. If we do not have a truck coming into your area or if your order is too small to schedule the truck for a drop we will send your order to you *Freight Collect* via LTL/UPS.

**Carrier rates will apply.**

150.00 per additional delivery address within 50 miles of your business address. Our drivers are insured to tailgate and are not insured to unload on your property. A capable unloader will need to be scheduled to unload tail-gated product upon our arrival. Should you be unable to schedule an unloader, please call us ahead so that we may reschedule your delivery.

We strive to give our customers advanced notice so our drivers can arrive/Depart on time. Please remember that these guys make their living by making multiple drops as quickly as possible then returning the trucks for re-load. Life happens and we understand. We are willing to wait up to one hour after arrival to get unloaded. After that hour we will have to return the cabinets to the plant and reschedule the delivery.

There will be a second delivery charge added to the invoice in this event.

Lifetime drivers must stick to their delivery schedules and will not deviate from the address on their route. If you need an alternate delivery, please note on the original order fax. We will be glad to make the necessary stops for you *as long as we have prior notification to prevent delaying delivery to the next customer*. When drivers arrive at your business they will ask you to provide a checker. This is a person who will use the packing list provided to check off all products by the label as they are removed from our trucks. The driver will observe the checker and both will sign the packing list when off-loading is complete.

Dealers on shipment hold or Dealers who request held shipment will incur a 65.00 per day demurrage fee for loaded trailers and warehouse space for kitchens. We have many orders that rotate each week and unfortunately cannot provide storage for such orders.

---

**CHANGE ORDERS**

Changes will be accepted until Thursday at 5:00pm Eastern. All changes must be faxed or emailed. Additions after this cut-off will be entered on another order and put in as a Rush to catch it up to the original order as needed. Changes made due to extreme circumstances after the Thursday cut-off will be subject to a 50% restocking fee. These changes may delay the production and shipment of the order until the following production week.

Changes and Cancellation will not be accepted for any orders received that are tagged Rush. Due to the efforts of our purchasing department to order and receive goods in a short amount of time, we find many times that these orders are already produced, packaged and due to be shipped and we cannot accept cancellations on these orders.

**RUSH ORDERS**

Lifetime strives to get Rush orders shipped out of the facility within 10-15 business days or less. Rush orders are limited to 5 or less cabinets per week per customer. The Rush order fee for expediting the products will be 30% of the order in addition to freight. Please be aware that outsourced non-stock items (some door styles for example) must be ordered and may not arrive in time to make the 10-15 day turnaround. These items will be ordered on a rush from our vendor, finished, packaged, then expedited to you as soon as it arrives at the Lifetime manufacturing facility. Non-finish items may be direct shipped to you from our vendor as available.

**MINIMUM CABINET FEES (MINCAB)**

We encourage you to combine your cabinet orders together when placing your orders. The small order Trend can become as plentiful as kitchen orders. Orders of three (3) cabinets or less on the normal cycle are charged an additional 20%. Combining your orders maximizes our manufacturing efficiency and therefore promotes your business efficiency. MinCab does not apply to vanity or laundry orders accompanied by a kitchen scheduled for the same PO in the same shipment week.
CUSTOMER PICK UP

Customer pick-ups must be made during or after the scheduled ship week. We request Monday and Tuesday as our shipping department loads our multi-drop tractor trailer trucks for out-of-state orders Wednesday through Friday. Call Transportation at ext. 202 for a time slot.

DAMAGE/RETURN/BACKORDER/SHORTAGES

All damages must be noted and signed for by a Lifetime driver upon delivery. Concealed damages must be reported within 14 business days from shipment and will require return. Damages reported after that date will not be credited. Notify Lifetime by faxing a copy of the signed packing list with the items noted for replacement. Your order will be placed on Rush for the next available truck and we will pick up the items at that time. Drivers are instructed to only return products with authorization. Items allowed for immediate return are items sent in error by Lifetime. Please note that Lifetime order entry errors should be corrected by the customer prior to signing the confirmation. Items ordered in error and confirmed are not returnable. Lifetime does not have the room to store unwanted items. Backordered items are put on a Rush order in house prior to your notification. We strive to notify you of any backorder before the truck arrives. These are not frequent occurrences; however, on occasion they do happen. Generally, we will load these items within 5 business days of original shipment. Note shortage(s) on the packing list and obtain the drivers signature. Shortages claimed after the driver leaves your building will be charged. Fax the signed packing list noted with any shortage(s) to customer service immediately. Shortage(s) will be produced to ship Rush at no charge. Lifetime will determine the best method to ship the shortened item(s) including the Lifetime truck. Customers requesting overnight or 2nd day delivery will be responsible for freight charges. This charge will be invoiced to the customer.

POLICIES & PROCEDURES

Replacements should be submitted on an order form as such and a detailed account of the issue should be documented on the order. Lifetime does not send out replacements without sound documentation. If excessive claims are made for defective product, you may be charged until the products are picked up for inspection. All returns including outsourced items are inspected for claim validation.

WEBSITE/PHOTOGRAPHY

www.lifetimecabinets.com can be used as a sales tool. Many pictures and features are shown on our website. You will find your sales rep and his/her contact info under Contact Us. www.photobucket.com hosts many of our digital & professional photos from kitchens installed by our local retail showroom. Photobucket allows you to download and use our photography for your marketing needs. You can use photos to design your website or to use in print for magazines or newspaper. To navigate the site: in the search box, type lifetimecabinetsinc. You will get two responses. One says lifetimecabinetsinc cannot be found; and you will see "would you like to view their album"? Clicking this link will take you to our photobucket site.

DEFECTIVE MATERIAL

DOORS that are warped 1/4" or less must be allowed to hang through one season (Ex: Spring or Summer) before a no-charge replacement will be considered. Some doors may warp slightly after installation due to high or low humidity levels in the home. The door will usually return to a normal flat position after going through the seasonal change. Be sure to try adjusting the hinge to resolve before replacement. FINISH complaints concerning stain, paint, or glaze finish must be inspected by a Lifetime representative. Lifetime reserves the option of approving a field repair or returning the product to the factory for repair or replacement. Slight variations in grain and color are not considered defects as this is the natural character of the wood.
CHARACTERISTICS & BEAUTY OF WOOD

The natural hardwoods and plywoods used in Lifetime cabinets vary in color and grain pattern. Colors may vary from white, to red, to black, and even green, sometimes in the same door or drawer front. Some wood species have smooth, even grain patterns. Some wood species display mineral streaks, worm tracks, small knots, and pitch pockets. Some woods are susceptible to light and the environment, causing the wood to mellow and darken with time. These variations are created by nature and are generally acknowledged as the beauty of wood.

By its very nature, wood moves, contracts, and expands based on humidity and environment. Humidity control can limit the wood movement but not completely prevent it. Some finishes and glazing will magnify these changes. Opening of joints and movement of center panels not normally seen or noticed in stained products will become obvious with the "solid paint" look. Plywood joints, sanding scratches, and other imperfections will be visible. Hairline fractures at the joints of face frames and cabinet door stiles and rails will occur and are not considered a manufacturing defect.

Stable atmospheric conditions are required for joints on cabinet doors, fronts, & face frames to remain tight. Mitred joints in particular are prone to open or gap as a result of fluctuations in humidity. Climate controlled heating and air conditioning consistently running will prevent these issues and provide the proper balance in your home. This should keep your cabinets beautiful for years. Basement areas must be well-insulated to provide a stable atmosphere for wood. Please consult a professional.

Exposure to sunlight, smoke, household cleaners, and other environmental conditions may also cause the appearance of your cabinets to vary from their original color over time. This is why cabinets or accessories added at a later date may not exactly match existing cabinets. Changes in the product caused by exposure to these environmental conditions are not considered product defects.

CABINET CARE & CLEANING

Lifetime uses Wood Dr. by Zep. This is an oil based product used with a soft dry cloth, which cleans, shines, and preserves. Liquid Gold is a comparable product that can be purchased in most discount stores. Lifetime does not promote the use of condensed products such as Murphy’s Oil Soap that require the use of water. The water will get into the joints of our doors and frames and will cause them to dissolve the adhesive and fall apart or cause the finish to peel off.

Never use citrus products on wood cabinets. Citrus products will remove the clear coat and then the stain. Never use household cleaners on wood or the thermofoil products. For thermofoil doors, use a slightly damp cloth from your dishwasher. Mild dish washing liquids diluted will not hurt the white surface unless soaked or used full strength. For stubborn marks on these white doors, try a pencil eraser. Pest control spray applied onto the finish may cause

TOUCH UP & ADJUSTMENTS

Touch up, Door & Drawer adjustments are the nature of the industry beast. After shipment, loading, unloading, and installation…doors and drawers tend to get out of alignment and chips and dings happen. Managing the touch ups and adjustments fall on the shoulders of a professional installation team in the wood products industry. Should you need a crayon to fill or a marker for coverage, please let us know and we will send these items right away. We recommend ordering a TUK with each kitchen and leaving it with the Homeowner for repairing their own damages in the years to come.
Re: Job Site Deliveries

Job Sites are considered any addresses other than the client's business or warehouse address. We offer this service as a convenience to our customers with the stipulation that our trucks can legally and safely access the address.

Always be prepared for a small box truck or a tractor trailer. Many communities are restricted and large trucks will be fined for entrance. Low hanging trees, busy streets with cars parked on the street, old bridges without weight limits, and small country lanes are just a few of the things you should look for when judging if Lifetime can deliver to the jobsite. Inability to access will result in an additional delivery fee.

The job site delivery fee is $150 per trip. The fee applies to only one of the orders on the shipment, but reoccurs each time our truck goes to the address. Please expect to pay $150 in addition to the freight amount for every trip.

Scheduling for delivery is done by our office each week. Each of you will receive a call or fax from us (depending on your request) giving you an estimated day of arrival. Depending on weather, traffic, and just plain good luck, our drivers tend to arrive on time. For the times that just doesn't work out; we ask that you be flexible with them so that they keep as close as possible to their schedule for every customer.

Sometimes they will call you later in the evening or early in the morning - we hope that you will work with Chris, Rev and the Hatcher guys so they can move on and return home to the next batch of cabinets. Our drivers usually take two routes a week and are anxious to return home to their families as quickly as possible. Driving many hours at a long stretch is a tough occupation, but our drivers enjoy getting to see so many of you each week.

**Drivers are only insured to tail-gate products. Please have an unloader available at delivery.**

**UPS deliveries to COD customers should now be prepared to pay the UPS driver.**

Thank you,
Lifetime Administration
Defects/Returns

Lifetime takes great pride in the quality of our cabinets and each cabinet receives an inspection before leaving our facility. In all instances of claims made against quality - we legally must be given all opportunity to fix the problem and to restore the products to within our quality standards and tolerances. This means that no refunds or returns will be considered or approved until all repair options are exhausted. In the event that you receive a cabinet/s with defects the following steps must occur.

For a kitchen or large project the Lifetime Cabinets, Inc. field representative must be called in to do an onsite inspection. Our reps are our eyes and ears in the field and he/she must make a recommendation to the factory on what needs to be done to bring the project to within our standards. At that time, the products may be picked up and returned for repairs or correction; or a field repair person may be sent out to correct the issues. This is to be entirely at the discretion of the factory.

For single cabinets or miscellaneous pieces, please fax in an order for replacement giving documented description of what the problem is. This allows us to look over the items being claimed and to discuss options on how to resolve your problems. If frequent claims are made by a customer, then some items may be requested to be returned to the facility for repair or inspection or the rep may be sent out on various inspections for confirmation of claims. Some items may be replaced on a rush order immediately, particularly if such an issue has affected another customer recently. We want you to have what you need to finish the job and will of course make the process as painless as possible.

Lifetime does not refund or accept returns simply because the homeowner does not like the cabinets. Unauthorized returns will not be credited. We encourage every dealer to show samples of the same wood and specie and color to each homeowner and offer a sample reward program to keep costs down on samples needed to make sales. We reserve the right to charge a 50% restocking fee on any cabinets that are approved by the factory for return.

Lifetime Administration
HICKORY PRODUCT DISCLOSURE:

CHARACTERISICS & BEAUTY OF WOOD
The natural hardwoods and plywoods used in Lifetime cabinets vary in color and grain pattern. Industry standard particularly in the Hickory specie show wildly variegated patterns of mineral streak and sap lines. Colors may vary from white, to red, to black, and even green, sometimes in the same door or drawer front. Some wood species have smooth, even grain patterns, while others like Hickory have open and even “wild” grain variance. Some wood species display mineral streaks, worm tracks, small knots, and pitch pockets. Some woods are susceptible to light and the environment, causing the wood to mellow and darken with time. These variations are created by nature and are generally acknowledged as the beauty of wood. When using any wood to build furniture and cabinets, strips are used and then glued together to make large slabs for doors or panels. Many times you will see a glue line that attaches one colored strip to another. This is the particular beauty of hickory. You will see extreme variances and clearly see where the construction has been made.

By its very nature, wood moves, contracts, and expands based on humidity and environment. Humidity control can limit the wood movement but not completely prevent it. Some finishes and glazing will magnify these changes. Opening of joints and movement of center panels not normally seen or noticed in stained products will become obvious with the “solid paint” look. Plywood joints, sanding scratches and other imperfections will be visible. Hairline fractures at the joints of face frames and cabinet door stiles and rails will occur and are not considered a manufacturing defect.

Stable atmospheric conditions are required for joints on cabinet doors, fronts, & face frames to remain tight. Mitre joints in particular are prone to open or gap as a result of fluctuations in humidity. Climate controlled heating and air conditioning consistently running will prevent these issues and provide the proper balance in your home. This should keep your cabinets beautiful for years. Never store your cabinets in a non-climate controlled area to reduce expanding and contracting of the wood product.

Exposure to sunlight, smoke, household cleaners, and other environmental conditions may also cause the appearance of your cabinets to vary from their original color over time. This is why cabinets or accessories added at a later date may not exactly match existing cabinets. Changes in the product caused by exposure to these environmental conditions are not considered product defects.

CABINET CARE & CLEANING
Lifetime uses Wood Dr. by Zep. This is an oil based product used with a soft dry cloth, which cleans, shines, and preserves. Liquid Gold is a comparable product that can be purchased in most discount stores. Lifetime does not promote the use of condensed products such as Murphy’s Oil Soap that require the use of water. The water will get into the joints of our doors and frames and will cause them to dissolve the adhesive and fall apart or cause the finish to peel off. Never use citrus products on wood cabinets. Citrus products will remove the clear coat and then the stain. Never use household cleaners on wood or the thermofoil products. For Thermofoil doors, use a slightly damp cloth from your dishwasher. Mild dish washing liquids diluted will not hurt the white surface unless soaked or used full strength. For stubborn marks on these white doors, try a pencil eraser.

TOUCH UP & ADJUSTMENTS
Touch-up, Door & Drawer adjustments are the nature of the industry beast. After shipment, loading-unloading, and installation...doors and drawers tend to get out of alignment and chips and dings happen. Managing the touch ups and adjustments fall on the shoulders of a professional installation team in the wood products industry. Should you need a touch up crayon to fill or a marker for coverage, please let us know and we will send these items right away. We recommend ordering a TUK with each kitchen and leaving it with the Homeowner for repairing their scratches and damages in the years to come.

Customer Signature: __________________________________________ Date: __________________
Limited Warranty

Lifetime Cabinets, Inc. warrants its products to the original consumer purchaser, to be free from defects in material and workmanship under normal residential use, for a period of one (1) year from the original date of purchase. This warranty is non-transferable. Hinges, Drawer Runners, and Mechanical Parts are covered under this warranty for five (5) years.

During this warranty period, Lifetime Cabinets, Inc. will repair or replace, at our option, any cabinet or its component which proves to be defective in material and/or workmanship under normal installation, use and service. This warranty is limited to the replacement of defective parts and does not include service, labor, or transportation charges related to the removal or installation of defective parts. In addition, this warranty does not include labor or damage related to improper installation, storage, misuse or neglect.

This warranty shall not apply to Lifetime Cabinets, Inc. cabinetry or parts that have been subjected to alteration, modification, accident, damage in transit, abnormal use, extreme temperature, moisture levels, or abrasive/citrus cleaning chemicals. Touch up and adjustments are not included under this warranty and are the responsibility of the installer as part of the “cost of business”.

This warranty does not apply to any products used or installed in conjunction with Lifetime cabinets such as plumbing fixtures, countertops, or appliances. Use of Lifetime Cabinets, Inc. cabinetry or parts contrary to instructions furnished by Lifetime Cabinets, Inc. will void this warranty.

To obtain service under this warranty, please contact the business from whom you purchased this product. A copy of the original purchaser’s dated receipt must be submitted with all claims to preserve the rights under this warranty. Lifetime Cabinets, Inc. reserves the right to inspect the claimed defective cabinets to require that the replacements will be invoiced upon shipment and credit issued upon the return and inspection of defective product.

Special considerations:
A.) Doors that are warped 1/4” or less must be allowed to hang in climate controlled environment through two (2) seasons (Spring, Summer) before replacement will be made. Typically, the door will return to its normal flat position after conditioning to its environment. Prior to requesting a replacement, please be sure that the problem is not an installation deficiency.

B.) Finish deviations must be inspected by an authorized Lifetime Cabinets, Inc. representative. Determination will be made following the inspection whether to repair in the field or to return the product to the factory for refinishing or replacement. No field repair may be made without approval from Lifetime Cabinets, Inc.

C.) Stain variations: Since no two trees are the same, wood is a unique material with natural variations in grain, texture, and color. These variations may also cause considerable differences between old samples and new cabinets. Please Note: Newly produced cabinets will never be the same color as aged samples or cabinets. Samples should be replenished every 3-6 months.

No dealer or agent of Lifetime Cabinets, Inc. has any authority to change or enlarge the above warranty or Lifetime Cabinet’s responsibility.

THE WARRANTY STATEMENTS CONTAINED IN THIS LIMITED WARRANTY SET FORTH THE ONLY EXPRESS WARRANTIES EXTENDED BY LIFETIME CABINETS, INC. FOR THE CABINETS. IN LIEU OF ALL OTHER WARRANTIES, THE PROVISIONS OF THE WARRANTY SHALL CONSTITUTE THE ENTIRE LIABILITY OF LIFETIME CABINETS, INC. AND THE PROPERTY OWNER’S EXCLUSIVE REMEDY FOR BREACH OF THE WARRANTY. LIFETIME CABINETS, INC. SHALL NOT BE LIABLE TO THE PROPERTY OWNER FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR BREACH OF AN EXPRESS OR IMPLIED WARRANTY ON THE CABINETS.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific rights and you may also have other rights which vary from state to state.

LTC-07 SUPERCEDES PREVIOUS ONE YEAR LIMITED WARRANTY STATEMENT
EXPLANATION OF LIMITED PRODUCT WARRANTY

Year Limited Warranty

Lifetime Cabinets, Inc. warrants its products to the original consumer purchaser, to be free from defects in material and workmanship under normal residential use, for a period of one (1) year from the original date of purchase. This warranty is non-transferable.

WARRANTY COVERAGE
During this warranty period, Lifetime Cabinets, Inc. will repair or replace, at our option, any cabinet or its component which proves to be defective in material and/or workmanship under normal installation, use and service. This warranty is limited to the replacement of defective parts.

WARRANTY INCLUDES:
- Cabinet Face Frames — Drawer Fronts — Cabinet Doors
- End Panels — Back Panels — Tops, bottoms — Drawer boxes — Shelves

- Replacement or repair (at our discretion) of cabinet finishes which do not meet our product specification standards.
- Replacement of missing cabinet parts or components.

5 YEAR WARRANTY INCLUDES:
- Hardware (drawer slides, hinges, lazy-susan operating parts)
- Replacement of drawer slides, door hinges, and/or plastic revolving shelves which are defective in materials and/or workmanship.

WARRANTY EXCLUDES:
- Correction of improper installation or repair of damage caused by improper installation.
- Labor costs associated for removal, repair, replacement, or re-installation of cabinets or parts (unless approved by Lifetime Cabinets in lieu of replacement).
- Replacement parts or repairs when cabinetry is used in other than residential home application.
- Replacement or repair if cabinets and/or parts subjected to: field alteration or modification, extreme heat/cold or dryness/moisture levels, misuse, negligence, abuse, accidents, damage in transit, abnormal use, excessive sunlight or smoke, improper installation, handling, care and/or cleaning (damage by abrasives or citrus products).
- Deterioration due to normal wear and tear.
- Improper storage situations.
- Service calls to correct the improper installation of cabinetry.
- Repair or replacement of any products used or installed in conjunction with our products such as plumbing fixtures, countertops, and appliances, and any associated labor costs.
- Any use of our cabinetry or parts contrary to instructions furnished by us.
- Drawer slides, hinges, or plastic revolving shelves that have been exposed to excessive loads or abused. Warranty does not include removal or replacement of defective drawer slides, hinges or plastic revolving shelves.
- Dissatisfaction due to improper maintenance or installation.
- Damages for naturally occurring events of nature such as fire, floods, or acts of God.
- Any incidental, consequential, or other damages of any kind or nature.

Cabinet Custom Modifications

1. Increase Depth +15%
2. Decrease Depth +15%
3. Extend Stile Left, Right or Both $22 for one or $33 for both
4. Invert frame +15%
5. Face Frame & Doors only. Less -35%
6. Flush Toe Kick +15%
7. No Toe Kick +15%
8. Full Depth Shelf +$35
   Many cabinets come standard with PEG code or with MULL code for mullion lite door in section 7 of the catalog and do not require modification.
10. Recessed Toe Space 50% for one or 75% for both
11. Finished interior +50%
12. Custom oven cutout +$150
13. Wide Top Rail 4 3/4 or 7 3/4 +20%
   INSTALLATION note: most items are offered installed.
   Rollouts can be ordered by adding RCS in front of the cabinet size, example: ROSP152496.
   Exceptions are: Pull out pantry systems and other items that are too heavy or loose for the sale shipment of the cabinet and items too time consuming to install on our production line.
